

Plasmavision®

Plasmavision. Pure visual excellence

Since launching the world's first colour plasma screen in 1993, Fujitsu has gained a reputation for continually pushing the boundaries of picture quality reproduction to deliver the ultimate home cinema viewing experience. With over fifteen years of video processing know-how crammed into Fujitsu's stunning 50 series Plasmavision range, its latest HD-Ready screens don't disappoint.

From 42 to 63 inches, Fujitsu's award-winning home cinema collection will be in the Bristol suite at the Bristol show. Screens are available exclusively through high-end AV specialists and custom installers. If you would like to find your nearest dealer or are a dealer interested in opening a direct account please call Fujitsu on 020 8731 3466 or visit www.fujitsu-general.co.uk.
