16th July 2009

Dear Sir/Madam

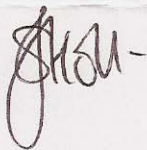

We commissioned Finite Solutions to install a cinema system, lighting, audio visual and security system in November 2007 during the refurbishment of our home. We cannot commend them highly enough.

Amin and his team were efficient and effective and we have been impressed with their ability to problem solve and suggest methods of achieving our requirements. They are considerate of their customer needs and communicate in a clear and uncomplicated fashion the system they are installing and what is possible to be achieved. On initial installation Amin's team worked in a calm and professional manner under quite difficult circumstances and liaised effectively with all the other workmen working on the refit. They worked in a calm controlled manner and showed great resourcefulness in overcoming any problems they encountered. They were all incredibly polite and considerate when working around the house.

Once the system was installed we have found the after care service to be just as professional and efficient as the installation. Amin has always been speedy in his response to any issues we have encountered, he has always returned our calls if he was unavailable and has organised visits to aid us with any issues to meet our schedules.

Amin and his team are very professional, articulate and experienced, they are proud of their systems with good reasons. We highly recommend them,

Yours Faithfully

John Holt
