Dear Simon and the Finite team,

My self and Sue wanted to thank you for the fantastic system yourself and your installation team designed and integrated into our home. We are delighted with the installation and never realised just how much we would make use of the multi room audio capabilities of the system.

In conjunction with the excellent Lutron lighting, music throughout the house has made entertaining at home an all too regularly event as we love to show off just what the system can do!

As I mentioned to you before we are currently purchasing a plot in the Algarve with the intention of building ourselves a holiday home. Once we have the plans finalised, in the next month or two, I will be in touch to get your ideas on how we can integrate a similar system in the property so we can enjoy all its benefits when we are away.

Food for thought: we like the idea of a big screen outside so we can watch TV during the day whilst in the pool!

Many thanks once again,
