17<sup>th</sup> July 2009

Dear Amin,

As per our conversation I wanted to provide something in writing to you for the purposes of using it for a client testimonial.

Finite Solutions provided a thoroughly professional and competitive solution to our home cinema requirements.

From inception to installation they demonstrated an outstanding level of expertise, whilst at all times being reassuringly sensitive to our limited understanding of the wide range of available solutions.

Our home cinema was installed over 18 months ago and during that time we have experienced very few problems; those that we have experienced were of a minor nature and have been resolved promptly and with the absolute minimum of fuss and bother.

I have no hesitation in recommending Finite Solutions to anyone looking for outstanding advice, great service and value for money.

Your Sincerely,

 Smillie
