Start	ASAP
Deadline	Please submit your application ASAP.

About Finite Solutions

Finite Solutions is a CEDIA accredited high-end home technology company with offices in Leeds and London. Recent awards include winning several project categories in the '08, '09 and '10 CEDIA awards, Installer of the Year 2009 (Home Cinema Choice Magazine) and Installer of the Year 2008 (Custom Install Magazine) as well as being a Crestron Dealer of Distinction.

We are looking for an Installation Engineer for the London office. This is a fantastic opportunity for the right person to join one of the country's leading CEDIA accredited companies.

The position is a long term opportunity to be part of a rapidly growing company with good training prospects. We are a hard working company, but also enjoy what we do and have a good time doing it. We are committed to employee development and will ensure that the candidate is funded and supported for any additional training or accreditation required for the role.

The Role

The role involves working as part of a team, carrying out the installation of high end AV / home automation systems. The role requires knowledge of custom audiovisual distribution / home automation hardware / software and extensive onsite installation experience.

Candidate Requirements

- All candidates must have at least three years experience in some or all of the following areas: Multiroom Audio Visual Systems, High End Home Cinema, Lutron, Crestron, Kaleidescape, Universal Remotes, Mechanical Automation, Satellite systems, IT and Telephony.
- Practical skills to be able to fit LCD/Plasma screens, projectors, install in wall keypads and have the relevant construction experience to do this.
- Competent Audio Visual knowledge including connection of audio and video equipment and terminating Cat5 sockets and equipment.
- Good practical skills and an understanding of construction techniques in a residential environment
- Ability to build and connect AV racks in a neat, efficient and professional manner.
- Be an efficient and hard worker and be able to stay calm under pressure and understand that work must be completed to a deadline.
- Client facing and be able to communicate with our client base
- Candidate will require a full UK driving licence.
- Programming experience for Lutron Homeworks and Universal Remotes would be beneficial but not essential.
- Ability to set up Data Networks, with secured WiFi and VPN would be beneficial but not essential.
- CEDIA Installer Accreditation would be beneficial but not essential.
- Candidates will require a full UK driving license.

It will go in the candidates favour if you are able bring examples of work or projects you have worked on previously and be able to describe what role you had within the project.

If you believe you fit the criteria outlined above, please email your CV and covering letter to london@finitesolutions.co.uk addressed to Phil Cotton.
